

Work Health & Safety Policy Indian Association of South Australia (IAASA)

IAASA's overall objective is to provide a safe working environment for all our volunteers, visitors and associated personnel dealing with our organisation.

We will effectively manage our organisation and personnel through the process of informed decisions resulting from assessments of the workplace and the development of appropriate 'safe systems of work' within relevant legal compliance.

Policy Specifics

- To incorporate the management of risks as part of our management process
- Identify, assess, control and monitor treatment of risks
- Train and evaluate our Volunteers performance in WH&S/ Environmental procedures and ensure consultation is achieved at all times
- Consider cost/benefits in the risk treatment of identified risks
- Involve our Volunteers in all aspects of our programs
-

Responsibility/Accountability

- Management is responsible and held accountable for the implementation and effectiveness of our program
- Our volunteers are expected to participate and work with management in the 'continuous improvement' process
- All BSC's volunteers are expected to report any unsafe or non compliant task or activity, with potential for actual risk/hazard to their immediate management.

Measurement

We will undertake regular reviews and assessment of all our WH&S activities to ensure high compliance standards are maintained.
